

About TES

A closer look at
Total Energy Solutions

Wynne Henderson

Managing Director

Total Energy Solutions (TES)

“Welcome to TES.

For us, Energy Conservation has been a driving passion since 1995.

Our dedicated team continues to deliver innovative solutions which have saved clients millions of dollars and reduced their carbon emissions by thousands of tonnes.

We can't think of a better business to be in. Let us share our passion with you.”

TES delivers a world-class energy and water efficiency solutions platform for our clients, both nationally and overseas.

Our mission is to enhance customer's growth by delivering long-term, financially sound, energy and water solutions using advanced technologies, which are reliable, efficient, competitive and environmentally sustainable.

TES utilises an holistic approach to provide maximum efficiency returns, financial savings and environmental benefits for our clients.

A complete Business Offering

Solutions

TES has been at the forefront of 'Green Business Strategies' for many years. Our business has evolved to deliver on market changes such as the introduction of Energy Star Ratings and the focus on Carbon Reduction across a customer's property portfolio.

Technologies

TES clients benefit from exclusive access to new innovations and state-of-the-art technologies through our international network and in-house design capabilities.

Journey

TES has addressed a significant need in the marketplace by developing the exclusive Journey Program - a strategic, one stop Energy & Water Efficiency and Carbon Reduction Management Platform for corporate clients.

Diverse Clients and Challenges

TES has worked with a wide spectrum of private sector and government clients addressing climate change issues in commercial office buildings, retail shopping centres, hotels, hospitals, education facilities, manufacturing and processing plants, both nationally and overseas.

International Resources and Experience

Personnel within TES have over 15 years of experience in reducing the carbon footprint of their clients, saving them money and improving their facilities. With this track record, and energy savings being guaranteed by TES, our experience means reliability, confidence and effective risk management for our clients.

TES has also successfully migrated its expertise and business model internationally, serviced by our offices in Brisbane, Sydney, Melbourne and Shanghai, and through our affiliation with Kaltimex Energy into Indonesia, Singapore, Bangladesh, Thailand and the Philippines.

Key Strategic Alliances

International expertise and experience are leveraged by Total Energy Solutions in our project planning and delivery, particularly for highly specialised energy projects such as embedded co-generation and Independent Power Production (IPP) projects.

Our commitment to excellence on an international level has been enhanced through key strategic alliances. For example our complementary energy services relationship has expanded with Kaltimex Energy, where our energy conservation capabilities combine with their power generation expertise.
